

Architectural Firm Initial Registration Application Instructions

All firms practicing architecture in Louisiana are required to register with the LSBAE and receive a Certificate of Authority within thirty days following registration with the Secretary of State. The legislature has enacted laws which govern all firms practicing architecture in Louisiana. In accordance with those laws, the LSBAE has adopted rules which regulate the registration of such firms.

Types of firms that may qualify for registration as an Architectural Firm include corporations, partnerships, limited liability partnerships, limited liability companies, associations, sole proprietorships, or other entities lawfully organized under the laws of Louisiana or other lawful jurisdiction for the purpose of practicing architecture. An Architectural Firm will be required to designate one or more supervising professional architects who shall perform or directly supervise the performance of all architectural services by the firm in Louisiana. See Board Rule §1705.G.

Depending on the structure of the firm, you may be required to designate an in-state registered agent with the Louisiana Secretary of State, and other general corporation laws may be applicable. There are no shareholder or control requirements to register as an Architectural Firm.

If your firm has been previously registered and you already have a license beginning in "LL," "AC," or "AE," please list your current firm license number. Approval of an Architectural Firm registration will automatically render your previous registration inactive. Do not use this form unless you are applying for an **Architectural Firm** registration.

Please make sure we have an email contact for your firm.
